The President and Members of the Security Council
The United Nations
New York, New York 10017

Dear Sir or Madam,

I greet you and all the members of the staff you direct. I ask that you please give my letter your utmost attention.

My name is Antoine Andremise. My identification number is 06-06-1975-04-00061. I live in the village Hatte Eme, the section called Caneau River, in the Commune of Saut d'Eau of the Central Plateau Department of Haiti. While I was not struck with cholera, my eight year old child, Valancia Jean Baptiste, came down with poisonous cholera in October of 2010. She suffered greatly with a stomach ache, diarrhea, and vomiting. I took her to a cholera treatment center in the town of Saut d'Eau where she spent three days. During this time I spent a good deal of money on transportation and food for the comfort of my child. Thanks to God and to the medicine she was given, she found some relief. However this illness left her with a headache, fever and a deformity in her legs.

Mr. President, I hope that you and the members of the Security Council will use your diligence to help us receive justice and compensation because our country had no cholera before the Nepalese soldiers of MINUSTHA (United Nations Stabilization Mission in Haiti) brought it to our country.

Sincerely yours,

Antoine Andremise
