Object: Demand of justice and reparation

President,

It's with a touched heart that i am writing this letter to let you know once again that all authorities have to respect the rights of one human being.

My name is Lucnor Hylmer; I live in the community of Doko, 4th section Kret Bile in Mirebalais. I was during the year of 2010, precisely in October when Cholera was spreading around that I've got the sickness. Diarrhea, vomiting, headache, fainting, I lost control of myself. I was brought to the hospital without any knowledge of what was happening to me. That's why I am demanding Justice and reparation, Minustah has to compensate me completely because since I had the illness, I don't live well anymore and I remain with a pain in my whole body.

Thank you,

Lucnor Hylmer

Object: Demand of justice and reparation

President,

It's with a broken heart and sadness that i am writing this letter to submit my claims to the authorities because they have to respect people.

My name is Cecile Ariste, I got Cholera, those were the all the symptoms I got: watery diarrhea, vomiting, stomachache, fainting. Although not I am not sick anymore, the illness has left me in bad shape.

Therefore, I am asking Minustah for Justice and Reparation because they are the ones who have contaminated the waters of Mey. If they didn't do so, I wouldn't get Cholera. I hope that the authorities will finally respond.

Thank you,

Cecile Ariste
