To: President and members of the Security Council of the United Nations

Object: Demand of justice and reparation

President,

It's with a lot of sadness in my heart that I am writing this letter to submit once again my claims to the authorities.

My name is Magalie Vilma, I live in the community of Kajou, 4th section Kret Brile in Mirebalais, and I was born and raised there. In 2010, precisely in October Minustah contaminated the waters of Mey and then it was spread around the country, that's how I got the illness. My symptoms were, watery diarrhea, stomachache, headache, fainting. The cholera left me almost paralyzed. That's why I am asking the Council of Security of the United Nations to make Minustah give me justice and reparation to allow me to live during the few days I have left.

Thank You,

Magalie Vilma
