Prime Minister Republique D'Haiti Evans Paul

Objective: Demand for Justice and Reparation

President:

There is much sadness in my heart as I write this letter.

Above all else, remember that my rights are equal to all others' rights and are not superseded by the rights of any other entity including State powers of any kind.

My name is Camilus Raphael. I live in Lokalite Mazombie, Grand Boukan Section in the commune of Mibale. In August of 2011, quite suddenly, I became very ill. My symptoms included vomiting and nonstop diarrhea. When I arrived at the hospital, I passed out and the Doctor hooked me to an IV.

I spent eight days in the hospital. My sickness is directly connected to the white people of MINUSTAH. MINUSTAH is the carrier of cholera to our country, Haiti, and we are paying dearly for this. Our country Haiti has never been exposed to that disease before. This is why I asking for justice and reparation.

Best regards,

Camilus Raphael
