Mr. Ban Ki-moun, Secretary-General of the United Nations

Dear Leaders:

I am writing you all to express the pain and suffering I have endured from being infected with cholera on October 22, 2011. Cholera is still a problem for me today because I still remember my pain and suffering when I was battling the disease. I am writing you to ask for compensation because cholera was a big problem for my family and myself. I thank you for your understanding.
