To: The President and members of the United Nations Security Council;

My dear man,

It is well that I tell you that my life is not important anymore since the cholera swept over me. It gave me diarrhea and vomiting. I used to work the ground, but now I cannot do this anymore. Presently, my body is always weak. It is the "Ministha" they who give me cholera. It you who know how much you are going to give for compensation for our loss, because of the cholera my life is finished. I can't do anything know for myself. Dear man when I walk I fall down. I can't even walk to my garden, I can't do anything anymore because I am dizzy, and the cholera made me deaf. I have become weak and I have pain. I am no longer what I use to be. The cholera has left me with poor eyesight and I can't eat well anymore. My ability to think has left me, my mind is no good.

Thank you,

Se Batiste Polina

To: The President and members of the United Nations Security Council

My Dear man,

It is well that I tell you that my life is not significant anymore since the cholera took me. I work for my child but since the cholera he has had severe diarrhea and he can't get up...he can't eat nor can I since the cholera came on us it gave us diarrhea and vomiting to the present. We are weak all the time. They "Ministha" they are the ones who gave us the cholera. It is you yourselves that know how much you can give us for compensation for our losses. My life is finished and I can't do anything anymore. My child has dizziness and his head hurts. The cholera left him crippled and I am unable to work. He can't go to school anymore and it has left us with eye problems. I can't do anything as well. I tell you who are the masters the cholera has made me lose my mind.

Thank you,

Merie Isnack

My name is PIERRE, ROSEMANIA. I am 35 years old. My National Identification File (NIF) 06-06 99 1980-06 00016. My address is as follows:

Bienplase, Section 2 Lasel, Commune Sodo

I was one of the people who fell victim to the Cholera epidemic, December 26, 2013. This disease was particularly troublesome in light of the fact I was 6 months pregnant I had the following symptoms: Diarrhea, vomiting, fainting, nausea, feeling the baby was unsettled inside me going up and down my belly.

Luckily the ambulance came and God in heaven saved me.

Toward that end, I'm asking for the President and the members of the United Nations to compensate me for the Cholera contamination caused by MINUSTAH.

Unless adequate measures are taken, I will press on in my grievances and protests in front the US embassy to see that my human rights and those of the people of Haiti are respected.

RE: Demand for Justice and Compensation

Excellences,

I greet as well as congratulate you for your commitment to Haiti's good cause. May God bless you and give health and happiness so you can persevere in the great work that you're doing.

My name is DEZI MARI KLE ERZ. I just turned 18 and forced to drop out of school as a result of contracting Cholera.

Even though I was brought over to the emergency center where I got treatment. I still haven't fully recovered. I'm still struggling with many issues physically.

I scream for justice, justice, justice and compensation which goes along with it. Thank you in advance for all your consideration

RE: Demand for Justice and Compensation

Excellences,

I cheer you in the name of the Lord who reigns over humanity. What a great job that you do, and undoubtedly will keep on doing. You're help Haitians breathe a little easier everyday even though they are suffering tremendously.

My name is DEZI FELIK. My address is as follows:

In the locality of Polikap, Section Koup Madigra, Commune of Sodo

The Cholera disease struck me back in year 2013. After I received treatment at the Sodo Community Health clinic, my life was saved but could never really get back on my feet. I'm no longer the same way I was before. No longer able to tend for myself and my seven (7) children, mind you.

In this particular mindset, I am claiming justice and compensation, confident that you will give the utmost consideration to that claim.

RE: Demand for Justice and Compensation

Excellences,

I salute you all on behalf my country for the work you've done and what's ahead in the struggle to help cholera victims find justice and compensation, in accordance with Haiti's laws and international conventions on human rights. My name is MONJERA, MAXIME, 77 years old. I stay:

Grospye, 1<sup>st</sup> Section Rivye Kano, Commune of Sodo

I got struck by cholera back on May 27, 2013. I was rushed to the medical clinic in Sodo under tremendous pain, vomiting, stomach cramp and diarrhea. Cholera is a deadly poison that was in my stomach almost sent me to the place "no hats allowed". For God sake and in doctors' care, I survived it but no less debilitated as it left me weakened drastically.

I am claiming justice against cholera and compensation, Thank you Mr. Ban Ki-moon.

RE: Demand for Justice and Compensation

Excellences,

July 2011, I heard people talk about Cholera. Never heard of it before.

All of a sudden one night I lost my vision, my hearing, diarrhea non-stop, vomiting and so on. I was so weak, could only lay by a mango tree in my backyard. People were passing by, I could see them but didn't have strength to call for help.

Only as they realize what seemed obvious, they rushed me in to the medical center. The beast was so devastating I was left no mercy. The medical staff saved me from the beast.

I'll be upfront with you. It took a hell of a lot of orally fed serum to get me from trespassing. You can imagine how painful that was.

RE: Demand for Justice and Compensation

Excellences,

Nowadays, shedding much tears to be able to invoke to you the kind of suffering cholera caused me in this here country of Haiti.

This epidemic, no one will likely forget on earth because it was so acutely dangerous. It has nothing to do whether or not you weak or strong, big or small, indiscriminately all human beings go through it.

When the epidemic hit me a while back, it almost tear me apart as much for the vomiting, the diarrhea and bone breaking spasms. It also cause me loss of memory. Because of that, I can't even study anymore.

I'm confounded deeply by that and hence why I'm writing to get compensated. As far as I was living normally before this hit me.

Excellences,

Sickness never ceases in the life of Christians. But there are sicknesses when you catch them, it's as though life doesn't want you. Especially, for cholera.

This epidemic of cholera is so malignant, it's everyone's consternation where in life did it come from? When I was contaminated by this sickness I didn't feel normal at all, vomiting, diarrhea and I couldn't stand still neither I could walk. Until this day, it made me handicapped so much so I can no longer tend to my garden or even do the chores like going to the local market.

I am totally useless and it's as though this epidemic turns me into a complete parasite. This is principally why I am writing to see what in this sense you can do for me.

RE: Demand for Justice and Compensation

Excellences,

Cholera gives me all different illnesses like vomiting, diarrhea, body ache, loss of hearing, general weakening of body muscles. It gives anorexia and other form of eating disorders, I lost the will to work and take care of my children even send them to school as I used to.

Inability to do strenuous activities, also reduce my speech capacity tremendously. It's hard to hear as much as it is to talk.

Since it's the fault of MINUSTAH I now have diarrhea. It's their obligation to compensate me. I am at a stage where I defecate and vomiting on people due to the cholera disease.

Thank you for your understanding whatever consideration that's worth.

RE: Demand for Justice and Compensation

Excellences,

With sadness I witnessed what devastation Cholera has done to my brothers and sisters. Nobody knows where this illness came from. It's a real opportunity for me to vent off what I personally went through right this moment as another victim of Cholera.

It is the kind of illness when it falls upon you it does not make any difference if you big or small, pretty or old. I too fell prey to this disease and it made unable to walk, vomiting, diarrhea, etc. I lost my consciousness, couldn't recognize people and most of all left me handicapped.

Simply because all activities I had going for me, like I used to take care of my children, feed them, send them to school. All that came to a halt. My kids dropped out of school because I could not do anything like I used to before. Not even working in my farm.

I address you in order to see what you can do for me in terms of compensation. Since I am alive, I never have seen anything as drastic as this disease.

RE: Demand for Justice and Compensation

Excellences,

To tell it to you right, it's as if my life lost its meaning as it made me incapable of fending for myself, my wife to care for and my children to feed.

When Cholera hit me, diarrhea, vomiting, body ache, nausea, loss of consciousness. All I know, it's the MINUSTAH that caused me to be like this where my life is meaningless. I hope you will take that into consideration

Thank you very much.

RE: Demand for Justice and Compensation

Excellences,

With tears in my eyes, I jump on the occasion to drop down a few lines to tell you the impact Cholera had personally on me when I caught it

You see how this disease hits the area, it does not discriminate between rich and poor. When I became contaminated, was in the middle of a market area. It had every symptoms like diarrhea, vomiting, body aches, nausea and dizziness. I felt really deprived afterwards I was discriminated in the society just like a handicap.

The purpose of me writing you is to seek your help to get me compensated.

Thank you very much.

Jodi a se aver anpil regre pou m  
ekri de lè pou m di w kisa epidemi  
Kolera a te reprezante pou mwen non  
lavi m

Se yon maladi tout moun nan zòn  
mwen te preske enfekte te ladan l  
se yon maladi depi l tonbe sou ou, pa  
ni gwo, ni piti, ni bèl, ni vyē kelkeswa  
sa ou ye lap antre sou ou kanmenm.  
Lè maladi sa a te pran m pat  
santi m byen menm mwen tap vomir  
dyare tout zo nan kò m tap fè m  
mal mwen te tonbe disponisyon  
mwen pat konn moun e moun  
te meprize m kòm maladi sa.  
e aprè li fin kite m li lage yon  
andikap nan kò m mwen se yon  
elev lekòl mwen vin pèdi tout  
sans mwen, m paka aprann byen

Alo mwen ekruw pou  
we ki fason ou te kapas  
ede nou kòz maladi sa a  
ki fè preske tout moun nan  
zòn gen yon andi Raf.

RE: Demand for Justice and Compensation

Excellences,

Today, it's with deep sadness I jot down these few lines to tell you exactly what impact Cholera has had on my life.

When this epidemic came, everyone in my hometown got hit. Its gruesome quality is that it does harm without making differences between rich, poor, big, small, pretty or old. It devastates everyone equally leaving a profound feeling of void. I felt terrible, vomiting, nausea, diarrhea, lost consciousness. People, I could no longer recognize neither they did themselves. I was also subject to negative stigmatization as a result.

Long after the immediate symptoms had subsided, there were sequels affecting me until today being I am unable to pursue my studies, having difficulties retaining my lessons at school.

It's with that sense of urgency I appeal to you because my community is in dire need for your assistance as we're all faced with the same problem of physical and emotional handicap.

RE: Demand for Justice and Compensation

Excellences,

Today, it's with tears in my eyes I jot these lines to tell you what horrific things cholera did to me and how it impacted my life in this country called Haiti.

This epidemic, no one will forget ever on this earth the way it dehumanize you no matter how big you thought you were. As for me, it felt like I was in shackles unable to do my most instinctive necessities. I had diarrhea, vomiting, I passed out in my house and regained consciousness in a hospital hall. It paralyzed every joint in my body. Until this day, I am unable to regain prior strength level to return back to work.

I have been deeply scarred and sit around all day long living the sequels just like a handicap. I write to you because I have no place to turn. This epidemic dropped me all the way down to zero.

A handwritten signature in dark ink, appearing to be 'DORLEAN OLEMY', is visible on the left side of the page. A large, irregular green ink smudge or stamp is placed over the signature, partially obscuring it.
