Object: Demand for justice and reparations

President,

It is with great sadness that I am writing this letter to you to remind you that everyone, no matter what their nationality, must respect human rights.

My name is Mitho Termilus, I live in the Canton, sub-section Gran Boucan, in the commune of Mirebalais.

In September 2011, the sickness fell on my child, upset stomach and diarrhea and vomiting. I didn't know whom to contact, I ran to the clinic where we found serum and other medicine. We were told that the MINUSTAH came to help us in Haiti, but in reality they brought problems, which gave us this sickness.

For this reason, I am demanding justice and reparations.

Object: Demand for justice and reparations

President,

It is with great outrage that I am writing this letter to you to remind you that everyone must respect human rights:

My name is Asias Jocenel and I live in Dalon. In the year 2011, the illness overwhelmed me like a cyclone. I have severe diarrhea and vomiting. I don't know what is happening to me, they carried me on a stretcher. When I arrived at the hospital, there was no place to put the serum. I suffered a lot and spent 7 days at the Mirebalais hospital.

What hurts me the most is that we were told that the MINUSTAH came to help us, but in reality they brought more problems when they decided to defecate in the water that Haitian people use.

For this reason, I am demanding justice and reparations. These are the conditions.

President

It is with great regret for me to write you this letter today. You are to remember that, human rights are a right that everyone should respect no matter their governmental status.

My name is Vesta Dorce, I live in Fond Cheval. I have to tell you that Fond Cheval is a large locality in the Grand Boukan Commune of Mirebalais. A nausea struck me in the middle of the night, I started to have bouts of diarrhea thrown everywhere, my stomach hurt a lot. I had no idea what Saint to call in the middle of the night. When they took me to the hospital, the doctor gave me a serum, at that moment in October 2013 until now, I have never felt at the same level of strength. All of these problems are a result of foreigners not respecting us in Haiti. They defecated in the water that we use and did whatever they wanted to us. For that reason, I am asking for justice and reparations.

Distinguished Salutations,

Vesta Dorce
